Work Experience

- **Senior AI Scientist, Artcube AI** (*May'26-Present*)
  - Led the development and deployment of generative AI solutions for image and video generation, editing, inpainting, and virtual product integration.
  - Evaluated and optimized generative models for visual quality, temporal consistency, identity preservation, inference performance, and production readiness.
  - Deployed and served LLMs on Azure GPU VMs using vLLM, systemd, and OpenAI-compatible APIs, optimizing model configuration and inference reliability.
  - Designed scalable AI pipelines using ComfyUI, Python, PyTorch, CUDA, FFmpeg, NGINX, and Microsoft Azure infrastructure.
- **Generative AI Engineer, Artcube AI** (*Jan'25-May'26*)
  - Developed production-ready text-to-image, image-to-image, text-to-video, and image-to-video pipelines using diffusion models, LoRAs, and reference conditioning.
  - Integrated generative AI models with Nuke, Python, and FFmpeg for compositing, object replacement, video processing, and workflow automation.
  - Fine-tuned models and resolved issues involving output quality, GPU memory, CUDA compatibility, dependencies, and media processing.
- **Generative AI Intern, Artcube AI** (*May'24-Dec'24*)
  - Built ComfyUI-based generative AI workflows using Stable Diffusion, LLMs, and image and video generation models.
  - Implemented image harmonization, upscaling, and model customization techniques and deployed GPU-based workflows on Microsoft Azure.

Academic Qualifications

Year	Degree/Certificate	Institute
2020-2024	B.Tech	Indian Institute of Technology Kanpur
2020	Class XII (CBSE)	The Jain International School, Kanpur
2018	Class X (ICSE)	Radha Krishna Memorial Education Centre, Kanpur

Achievement

- Played a pivotal role in the development of a product for an early-stage startup in stealth mode.

Technical Skills

- **Programming Languages:** C, C++, Java, JavaScript, HTML, CSS, Python, Go, PHP, SQL
- **Frameworks and Tools:** React, MongoDB, Microsoft Azure, ComfyUI, PyTorch, CUDA, FFmpeg, NGINX, vLLM, GitHub
- **Libraries and Software:** NumPy, Pandas, Matplotlib, OpenCV, Seaborn, MS Office, Autodesk Fusion 360, Android Studio, LaTeX
- **Competitive Programming:** 3-star coder on CodeChef (max rating 1776), Codeforces max rating 1359

Relevant Courses

Fundamentals of Computing	Introduction to Machine Learning
Linear Algebra & ODE	Partial Differential Equation
Data Structure & Algorithm	Computational Biology

Positions of Responsibility

- **Senior Executive, Synchronicity | Antaragni'21** (*Feb'22-Apr'22*)
  - Worked on organizing road trips for prelims across different cities in India.
  - Ensured hospitality for semi-professional rock band participants and event judges during the finals.
  - Assisted in the smooth conduction of the grand finals of Synchronicity at Antaragni, IIT Kanpur.
